

## Domestic Pet Sales Agreement/Health and Genetic Warranty

This AGREEMENT is made and entered into this the \_\_\_\_\_ day of \_\_\_\_\_ 20\_\_\_\_ by and between Paul H. Johnson (hereafter known as "SELLER") and \_\_\_\_\_ (hereafter known as "BUYER") to set for the terms and conditions of purchase and sale of **Golden Retriever** (hereafter known as "PET") from the litter whelped on the \_\_\_\_day of \_\_\_\_\_.

BREED: Golden Retriever

Birthdate: \_\_\_\_\_

Sex: \_\_\_\_\_

Sire: \_\_\_\_\_

AKC #: \_\_\_\_\_

Dam: \_\_\_\_\_

AKC #: \_\_\_\_\_

We take pride on our puppies to be of sound health at the time of sale to the best of our knowledge and has been checked by the veterinarian who gave them their vaccinations and worming stated on the vaccination record provided to the BUYER. They BUYER will be responsible for further vaccinations and boosters. The BUYER needs to have an inspection done, at the BUYER's expense, within 72 hours of purchase by a licensed veterinarian to validate this guarantee.

The PET is sold with one (1) year health and genetic warranty. The following stipulation must be adhered to in order for a replacement to be made:

1. Official reports from unaffiliated licensed veterinarians stating that, without a doubt, the PET has a genetic defect that will cause a shortened life to the PET. Reports should be sent to the SELLER along with the contact information of the veterinarians.
2. If the PET dies, an autopsy MUST BE DONE by unaffiliated licensed veterinarian stating the cause of death. All documentations should be sent to the SELLER along with the contact information of the veterinarians before a determination of replacement will be made.
3. The SELLER reserve the right to confirm the diagnosis with unaffiliated licensed veterinarian of the SELLER's choice. The SELLER will not be responsible for any expenses the BUYER may incur including veterinarian expenses and delivery.
4. BUYER does not guarantee any health issues occurred due to an uncontrollable exposure of what the PET encounters upon leaving the BUYER's premise. PET tends to get stress when they are adopted and moved to a new home. Stress brought by moving, change of diet, improper handling, not enough quiet time, improper feeding do not warrant a replacement. Stress can also bring on things that are dormant such as but not limited to: worms, colds, hypoglycemia, coccidiosis, giardiasis, and/or ear mites. These conditions are treatable and do not warrant a replacement.

The following are NOT covered by this warranty:

- a. Reimbursement for the veterinary, hospital, laboratory, and other incurred expenses upon the process.
  - b. External parasites, such as ticks, fleas, or ear mites.
  - c. Internal parasites, such as and not limited to intestinal worms. (PET can acquire another set of worms after few days of worming. That's why, we strongly recommend regular worming.)
  - d. There is no guarantee on the color or size of the PET.
- 
5. Although hip dysplasia can be hereditary, but as a new owner, BUYER share the responsibility of preventing it since it has been proven that hip dysplasia can also be caused by environment.

If for any reason the PET needs to be rehomed at any point in her life, SELLER will be made aware and have the opportunity to buy the PET back for half of the purchase price.

SELLER will offer lifetime support and help in any way possible for the life of the PET.

Agreed upon: \_\_\_\_\_ day of \_\_\_\_\_ 20 \_\_\_\_\_
